Learning Points

Descriptive writing

A descriptive paragraph describes a thing, a person, or a place. Detailed information lets the reader make an image in his or her mind. There are three parts to a paragraph.

Topic Sentence	Introduces the main idea/point that you want to develop
Supporting Sentences	To add to and provide examples of the main point
Concluding Sentence	Finishes off the paragraph

You use adjectives and adverbs to add detail and description in your writing. This allows the reader to imagine what you are writing about.
